Forecast For The United Kingdom
Issued by Met Office Exeter
at 1500 on Saturday 02 Oct 2021

UK Outlook for Sunday 17 Oct 2021 to Sunday 31 Oct 2021:
Confidence in this period is low. Turning more widely unsettled across the UK, with wettest and windiest conditions remaining to the north and the northwest. Drier conditions still possible at times most likely in the south and southeast. During more settled conditions frost and fog may become more prevalent overnight. Through this period temperatures will remain near or above average.
